Thousands See Fair

Thousands of people attended the highly successful Town and Country Fair Friday and Saturday at the Armory which was crowded with exhibits, contests, rides, refreshments and people.

The main building of the Armory itself served as the exhibit bulding as Cameron business and Clubs brought merchandise and ideas into play to form a center of interest for the crowd.

Several booths gave away prizes ranging from can openers and other novelties to gasoline and gift certificates.

In the rooms of the armory were 114 exhibits of paintings, photographs, and other arts and crafts.

In another was the large number of entries in the cake contest and pantry food contest plus the fancy needle work of the Milam Countians.

In still another there was a number of historical displays of early Milam County.

Outside new car dealers and farm equipment dealers displayed their newest models.

Rides for the kiddies and older fair goers were placed around the armory with booths for fun and refreshments.

The Little River Stew Supper was a sellout as about 400 fair visitors were served.

A big attraction was the Fort Hood Skydivers. They put on several displays of jumps but were hampered by the strong wind. However, a few of the jumpers were able to land on the small parking lot behind the Armory. Some were blown by the wind as much as a half-mile off target.

A large crowd attended the dance Saturday night after the concerts by the Light Crust Doughboys. The dance was held in front of the Armory.

Other music was provided by the Little River Swingsters, a band of high school students under Francis Cox and the old Fiddlers contest.

A white Elephant Auction Sale was held in the main buildng each day.

In all, over 70 contestants took home prizes and ribbons and thousands had a good time.

HUNG IN TREE — Bob Richardson, in black coveralls, talks to a few of the many spectators who gathered after he made a parachute jump at the Town and Country Fair. This was the 158th jump for the young Aggie Skydiver instructor and was the first time he landed in a tree. He was not injured. The Skydivers were a main attraction of the two day fair, which attracted up to 10,000 people both days.

Containerization . . a long word meaning "it's a prettier package because we can't do anything more to the stuff inside."

104-104-104

Packaging truly is becoming an art in the world of commerce. But even greater art--or witchcraft--is involved in the descriptive passages on the outside.

It used to be the usual superlatives such as: "Wonderful" or "great" or the like.

But now it's "New improved", "improved new", "100 per cent better" (it used to be a conservative 99 and 44-100), "step up to . . . ", "a man's cigaret" (that one was thrown out), etc.

Now it's the giant size, super colossal size, the family size, the jumbo, etc. What ever happened to small, medium and large?

OVERHEARD AT FAIR--"I've been at the Heart O' Texas Fair in Waco and this crowd Saturday night was proportionally as big as any in the HOT Grounds at one time."

Services Held For Cathy Schofield

Funeral services were held 4 p. m. Sunday for Cathryn Anita Schofield, 16, of Cameron, at the First Presbyterian Church, Cameron.

She died of injuries suffered in an auto accident near Marlin about 11:45 a.m. Saturday in which the car she was riding collided head on with a pickup truck.

Services in the church auditorium, filled to capacty by family and friends of the pretty Yoe High School junior, were conducted by Rev. Eugene Strickland, pastor of

Interment was in Oak Hill Cemetery.

Injured in the head-on crash was the driver of the car occupied by Miss Schofield, Dean Delleney, 16, recovering from dougle jaw fractures, a broken ankle and fractured left thigh.

Driver and one other occupant of the 1963 pickup truck both suffered severe injures. They are: Roy Fred Jund, 38, of Rt. 1, Marlin, the driver, treated for broken ankle, fractured ribs and internal injuries; and Robert Richardson, Rt. 1, Otto, the passenger, treated for possible skull fracture, broken hip, severe cuts about his face and head.

The accident occured on a gravel road near Marlin. Skid marks showed that the Delleney vehicle and the pickup both slid head on into the collision at a blind spot in the narrow road.

Miss Schofield was in Marlin Saturday visiting Mrs. Vivian Delleney and her son, Dean. The two young people had met at a church camp earlier this summer.

The popular high school student assisted as a Sunday school teacher and was in the Presbyterian Youth Fellowship group. In Yoe High School, she was a member of the Swing Band, the YHS Student Council, and on the annual staff.

Surviving are: her mother, Mrs. Anita Schofield, of Cameron; grand parents, Mr. and Mrs. August Knipp, of Cameron; Mrs. C. A. Schofield, Sr., of Kerrville; great-grandmother, Mrs. J. R. Wallace of Irving; a brother Clint Schofield and a sister Judy Schofield of the Cameron home.

Pallbearers, all Cameron young men, were: Mike Perrin, Lawrence Lafferre, George Bowman, Jr., Jimmy Woodum, Robert Woodum, Dick Ponder, Larry Paul Manley and Judson Smith.

SCHOOL NAMES FOUR TEACHERS, NEW DEPOSITARY

The Cameron School Board Monday night employed four new teachers, rehired a number of clerical and service personnel and named a new bank depositary for two years.

And the Board voted to renew student and athletic insurance coverage for another year with Southwest States General Agency, same firm carrying the policies last year.

Supt. Charles Zeigler said that four new teachers had been employed:

Mrs. Carol Henson, elementary teacher; Miss Delores Zalesky, elementary teacher; Mrs. Patsy Edmonds, YHS homemaking; and Miss Peggy Joyce Harvey, OJT social studies.

Contract renewals were approved for O. B. Harden, school tax assessor-collector; Miss Viola Wied, superintendent's secretary; and Mrs. Dorothy Laffere, YHS principal's secretary.

Also voted was the selection of Citizens National Bank, of Cameron, as school depositary for 1963 1965 on bid basis. School depositary for the years 1961-1963 was First National Bank, of Cameron.

Also re-employed were 11 busdrivers, J. A. Provasek, E. P. Hollas, Jesse W. Kirk, T. J. Kirk, S. W. McClaren, R. D. Provasek, Robert Weems Mitchell Chancey, Austin Banks, J.A. Pretty and Julius Whiteside.

Re-employed lunchroom personnel include: Inez Angell, lunchroom supervisor; Ruby Braden Velma Coward, Agnes Hollas, Alyne Roznos, Murphy Viewins and Lolitha Williams, all lunchroom cooks.

Tech Principal Speaks Here

J. B. Trimble, principal of Fort Worth Technical High School, Wednesday described the need for technical education in Texas' Schools in a talk before Cameron Rotarians.

Describing the development of Fort Worth's technical school from its original 48 students to its present 2,200, Timble said that in the decade of the 1960's more than 26 million young people will go into the labor market, with 6½ million of them school dropouts.

"We must train young people to be skilled in technical fields so our prosperous nation can become more prosperous in a competitve world," he said.

Trimble became prncipal of the Fort Worth technical school soon after it was started in the mid-19 20's. It is now conducting an expansion program to train additional personnel for General Dynamics, of Fort Worth, which is to begin work on the TFX jet project.

He pointed out efforts forwarded by Gov. John Connally to improve education in Texas and to expand technical training throughout the state through junior colleges and other institutions.

Reprints of a seres of articles from the Fort Worth Star-Telegram were distributed to club members, as well as samples of metalwork produced at the large Fort Worth technical high school.

"The situation of heavy unemployment for young people is explosive," he said, pointing the increasing rate of juvenile delinquency in American cities.

Introducing Trimble was R. E. Johnson, program chairman, who taught drafting and other technical subjects in the Fort Worth school for 20 years. His work was lauded by Primcipal Trimble.

DREDGING, WORK ON WALL DUE IN NEAR FUTURE

City Councilmen Tuesday heard a report that work was to begin on improving Little River dam and clearing the channel in front of the dam.

Mayor Coleman Duncum said plans include a "rip-rap" type of repair work on one end of dam where high water has caused the structure to weaken.

And a dredging operation is scheduled for clearing logs and old trees from the channel above the dam. This operation would clear and deepen the channel, the Mayor said.

Work can be done now with the shallower flow of water at present, officials said.

Councilmen also voted to review bids submitted by several apto dealers for a new police car to replace the present model.

In regular reports, Water Supt. Alvin Hefft noted three new sewer connections and one new water connection in the past two weeks.

And Public Works Supt. J. B. Earle noted work being done in the new section of the cemetery, assisting in hauling materials for the Twon & Country Fair and sprinkling work for the Cameron Horse Show.

Future plans for the Public Works Dept. include, he said: penetration work on several streets, completion of work at Fifth and Lamar, and additional drainage work.

Lions To Send Youth Delegate To Austin Meet

The Cameron Lions Club voted Monday to sponsor a delegate to the Youth Council Meeting at Austin which will be held by Attorney General Waggoner Carr August 17-18.

A committee was selected to screen applicants and select one to make the trip.

The club heard J. W. Monk of Bryan, USDA Pest Control Agent for this area, speak on the destruction of plants, and animals by the imported fire ant.

Although the fire ant is not in this area, Monk is very interested in keeping it out and urged members to be on the lookout and to report it to the County Agent or to Earl Angell, who was also a guest along with Mrs. Monk.

Monk showed slides on the damage the ants did on blue-bird eggs and newly hatched blue birds. He also showed slides of a pig that was killed by the ants and of a potato plant that was eaten up by the ants.

He also told of the death of a calf by fire ants.

Monk also talked on beetles, grasshopper, and the pink bollworm.

Cornelius Titsworth was program chairman.

1st Bale Ginned Hour Ahead Of 2nd

First bales of cotton ginned in the Cameron area have been reported, the first an hour and a half ahead of the second.

Frank Mikulec, Jr., of Marak, brought in the first bale at 3:30 p.m. Monday. It weighed 528 pounds and was baled by Farmers Gin of Cameron.

At 5 p.m. Monday Harry O. Clark's bale came into Buckholts Farmers Co-op Gin. Clark farms in the San Gabriel community.

BA Homecoming Set For Cameron Park

The Ben Arnold Homecoming has been scheduled for Sunday, July 21 at the City Park in Cameron.

The event will start with a basket lunch at noon which will be followed by a business meeting and fellowship in the afternoon.

13 Queen Candidates

Seven More File For MFB Contest

Seven additional entrants have announced plans to compete in the 10th annual Milam Farm Bureau queen contest, scheduled for July 26, rather than July 25 at First Methodist Fellowship Hall.

Now totaling six contestants in the senior division and seven in the junior, the annual MFB contest enrolled these new queen contestants by the July 11 deadline:

SENIORS — Carol Brown, Rt. 3, Rockdale, daughter of Mr. and Mrs. Joe Brown; Judy Westbrook, Rt. 3, Cameron daughter of Mr. and Mrs. L. M. Westbrook; Jolene Wied, 1203 Harding, Cameron, daughter of Mr. and Mrs. E. L. Wied.

JUNIORS — —Nan Noack, Rockdale, daughter of Mr. and Mrs. Leon Noack; Janet Lee Angell, Rt. 2, Cameron, daughter of Mr. and Mrs. Clifford Angell; Vickie Lynn Krenek, Cameron, daughter of Mr. and Mrs. Louis Krenek; Mary Elizabeth Hanel, Cameron, daughter of Mr. and Mrs. Clarence Hanel; and Pamela Kary Hause, Cameron, daughter of Mr. and Mrs. Bentley Hause.

Previous entries include: Seniors-Rita Stewart, Rt. 1, Milano, daughter of Mr. and Mrs. J. O. Stewart; Patricia Ann McClaren, Rt. 3, Cameron; and Linda Ann Ethridge, 803 E. Seventh St., Cameron, daughter of Mr. and Mrs. Johnnie Ethridge.

Juniors — Dora Lee Mewis, Cameron, daughter of Mr. and Mrs. M. H. Wimberly; and Eleanor Svetlik, Buckholts, daughter of Mr. and Mrs. Elbert Svetlik.

Date of the MFB queen contest has been changed to 8 p. m. Friday, July 26, because of the conflict of schedules for the master of ceremonies. It was previously planned for July 25.

Entrants will be judged by out-of-county judges in both contests on the basis of appearance, poise and personality.

The senior winner will receive a check for $30, while the junior winner will receive an Angus heifer calf, donated by Mr. and Mrs. Preston Perry, of Rockdale.

Junior participants are between the ages of 3-6 and seniors 16-22.

On Milam's Farms and Ranches

News About Milam Farmers, Their Interests, And Activities

1st Of Big Spenders

Farmer, Rancher Turn $1.8 Billion !

College Station — Texas farmers and ranchmen are continuing to contribute mightily to the general economic welfare of their state and nation.

They are big spenders on main street, points out John McHaney, extension economist, despite the fact their numbers are decreasing. Their purchases of production and consumer items continue to increase and are a determining factor in many counties for business conditions.

On an annual basis, Texas farmers and ranchmen spend about $1,848,000,000 in their operations. Included in 449 million dollars for hired labor and machine hire; 398 million for seed, feed, plants, fertilizer and lime; 310 million for livestock bought and livestock expenses; 301 million for machinery purchased and for repairs and maintenance; 119 million for petroleum products; 67 million for construction materials; 57 million for miscellaneous crop expenses and 147 million for other expenses including interest and insurance.

Emphasizing the importance of agricultural spending, McHaney points out that three - fourths of all the manufacturing in the state is confined to about six percent of the counties. Also, that in 208 counties more workers are hired on farms and ranches than in manufacturing and in 215 counties the value of agricultural production exceeds that of manufacturing.

Many businesses in our towns and cities are existing wholly or in part on agricultural businesses and their employees spend their money for various consumer items which give a multiplying effect on main street.

Farmers and ranchmen, McHaney explains, because of the cost-price squeeze and the need for more efficient production, have used machines to replace high cost labor whenever possible.

Tractors, trucks, combines, cotton picking machines and strippers, corn pickers, pick-up hay balers, home freezers, telephones, electrical equipment of many kinds, milking machines and much other machinery have become standard equipment during the past 20 years. Costs of these and other items, alone with labor, have kept main street spending on the increase. McHaney says, don't take agriculture for granted for it means too much to the total economy of Texas.

Cotton Reports

Movement of new crop cotton in South Texas continued slow but was picking up speed late in the week, according to the USDA's Agricultural Marketing Service. In the Rio Grande Valley harvesting has been delayed by adverse wet weather.

Very little new crop cotton has sold. Middling and better White grades in 1-1-32" and longer staples brought offers of 50 points above loan rates at Harlingen. The going price at Corpus Christi was 30-35 points over the loan.

The Austin cotton classing office received its first new crop sample from Bartlett. Harvesting, however, is not expected to get under way until the latter part of July. Local market activity was confined to processing NO-C-22 cotton purchased from CCC.

Weather was mostly dry and hot with a few scattered showers. Insects were causing trouble in many sections. Prospects look good for a bumper crop at this time.

GRIFFIN CHAPEL RECEIVES AWARDS

The Griffin Chapel community held its Community Improvement Awards Program Friday evening. The community was designated as the third place winner in district competition with division two communities.

For awards the community received a certificate and $25.00 for outstanding accomplishments in a unified community improvement effort as a participant in the Community Improvement Program.

The awards were presented to the Griffin Chapel community chairman, Frank Nelson by John Andres, Milam County Auditor, who gave the community some very encouraging words.

Fredrick B. Hamilton, who is an AID participant from Sierra Leone West Africa, participated in the awards program and briefly addressed the community on his native land and his mission here in America.

The Gause community will plan and hold its awards program in the near future. Gause was designated as the fourth place community in the district and will receive a certificate and $25.00. The Branchville and Davilla communities will receive certificates.

MORE PROTEIN PLEASE

As summer pastures mature they contain less protein and thus the percent protein in the ration should be increased, says A. M. Meekma, extension dairy specialist Texas A & M College.

Authorities say that there isn't a single crop grown in the world today which doesn't have a large number of different species of insects living on its roots, stems, leaves, seed, or fruit. They estimate that 90 percent of the food man grows would be destroyed if we didn't wage constant war on insects and other pests.

Motor vehicle accidents killed and injured 3,385,500 persons in 1962.

People Leaving Farms, But Stay In Agriculture

College Station--It is common knowledge that the number of people on Texas farms and ranches is declining. But it is less commonly known that many of the people leaving the country are not leaving the agricultural industry.

Today nearly 40 percent of all Texans derive their income wholly or in part from farming and ranching or connected businesses, says John McHaney, economist with the Texas Agricultural Extension Service. These businesses supply the production needs of farmers and process and distribute agricultural products, he adds.

Many agricultural processes that were once handled on the farm are now performed by these businesses and likewise much labor that was once needed on the farm is used by them. As one example, farmers today purchase most of their power in the form of gasoline and machinery instead of raising animals and feeding them, says McHaney.

Therefore, workers that supply these production needs perform a service for the farmer and are partially dependent on him for their living. About 96 percent of the agricultural production in Texas must pass through the business firms of the state before reaching the final consumer, he points out.

There are many reasons for the growing interdependense of agriculture and business, says McHaney. Some of them are that farming and ranching require a large capital investment, more cash is spent for living expenses and crop production today, and farmers are more dependent on the market place.

Increase efficiency in farm and ranch production has released much labor to the urban areas but much of this labor retains its connection with agriculture.

Survey Of Drouth Conditions:

Farmers: No Disaster Yet

By J. D. Moore
Milam CountyAgent

What has been done to get Milam County declared a drouth disaster area? No need for such a declaration at this time, according to representative farmers.

A survey of various areas of Milam County through interviews with farmers July 5 brought these comments:

Emitt Andrews, San Gabriel: Spotted rains caused producers in his area to favor Milam County being declared a distaster area.

O. P. Organ, Thorndale: This area was not critical at the time and should not be declared a disaster area.

L. T. Slavik, Marak: Farmers in showers; and though it is probably the driest part of the county, that community has received small they did not consider it disaster conditions.

Ira L. Burns, Baileyville; His area was not to be considered a disaster area at the time, since he felt some producers had overstocked their pastures.

SOME OVERSTOCKING

Charles Hensley, Walker's Creek: Though the area has received 17 inches of rain less than normal, the area was not considered critical. bermuda pastures are doing well Pastures were overstocked. Costal bermuda pastures are donig will because of fertilizer. Only silage will be made this year, no hay because of dry weather. The immediate area is bordering on disaster; help would require above normal rainfall.

Bill Crenan, Burlington: Last rain in his community was 3 inches the first of April and it was spotty. Yet, there was no need to declare it disaster area.

Pete Keen, Milano: No disaster yet, but the area was dry.

These farmers met with the USDA Milam County Disaster committee July 5, stating their opinions on the drouth status of the various parts of the county.

Other farmers surveyed were: Jerry Skala, Wilburn Beckhusen, E. M. Wiley, Calvin Cobb, Robert Foster, and Brown Ely.

Some areas are critical at present and producers are having to sell their cattle. But this situation is spotted.

CRITICAL AREAS SCATTERED

Critical conditions are scattered: areas with no hay, no grass. Unless conditions change drastically, they will have to sell livestock which will mean flooding the market, causing financial hardship. Other portions of the county will be in serious condition for hay and pasture if no relief comes soon as calves will be sold earlier.

The USDA committee finds this as a critical situation in areas although some isolated ones have moisture. The county as a whole should be declared a disaster area if conditions do not cahnge.

However, the committee at this time feels that their request for designation as a disaster county be withheld until further investigation.

Members of the USDA county committee are Charles McGilvary, FHA; Charles Henson, assistant county agent; Bill Crenan, Emmitt Andrews, O. P. Organ, Pete Keen, L. T. Slavik, Ira L. Burns, Charles Hensley, County Agent Moore, Henry Ivey, FHA; Alva Sanders, ASCS; and Chairman Ted Ford, ASCS.

Stockman attending were: Alvin Dusek, Wallace Culpepper and Mr. Coufal.

Mr. and Mrs. Henry Davenport and William Foshea attended church services at Covington First Baptist Church Sunday night where Rev. Henry Davenport is conducting a revival.

Feed, Cattle May Combine For New Industry

College Station — Texas, long known for the production of both feeder cattle and feed grains, may soon begin combining the two into a new industry for the state.

There are many areas of the state that have for some time produce a surplus of feed grain, says MP-626, "Demand for Feed Grain by Livestock in Texas." The new bulletin of the Texas Agricultural Experiment Station points out that some of these areas are now becoming centers of feeding operations.

The publication is described as an analysis of production and consumption conditions existing in local areas and should serve as a basis for evaluating feeding potentials in these areas. It explains, however, that a large amount of grain is not the only factor that determines if cattle feeding will be profitable.

Evidence is disclosed in the publication that grain is shipped out of some areas during the harvest season and other feed grain shipped back in when feed demands arise. The unnecessary transportation costs thus created add to the expenses of the buyer and the seller of the feed, it says.

In addition to transportation costs and feed quantities, factors that affect profitable feeding operations are the competitive location to meat processing plants and meat markets, and the manager's capabilities.

MP-626 analyzes the state feed grain situation by districts and indicates that some districts are deficit producers of grain while others produce a surplus. The study covered the years 1949, 1954 and 1959.

Copies of the publication are available from the Agricultural Information Office, College Station.

Milam ASCS Report

The Milam County Agricultural, Stablization and Conservation Service Office processed the first grain sorghum loans last week, according to Alva E. Sanders, office manager.

The Milam County price support rate for grain sorghum grading No. 2 or better is $1.94 per hundredweight. This rate does not include the 29 cents per hundredweight which will be made on the normal production on the planted grain sorghum acres.

Producers who are participants in the 1963 feed grain program and have complied with all the provisions of the program are eligible for loans under the 1963 price support program.

Price support will be carried out as in previous years through farm and warehouse stored loans. Sanders said. In making warehouse loans, the producer must bring the warehouse receipt to the county ASCS office and the loan will be processed there and the sight draft issued.

To put farm storage grain sorghum under loan, the grain must be in storage for 30 days before application can be taken for a loan. After the 30 day storage period, application is to be made at the county ASCS office.

On farm storage grain sorghum the moisture content cannot exceed 12 percent. On warehouse storage loans, grain sorghum containing 14 percent moisture will be

Benefit Game Set

The Cameron Little League All Stars will meet the Rosebud Little League All Stars in a special benefit game 7:30 p.m. Saturday, July 27.

Little Leaguers, aided by the Ladies Auxiliary will be selling tickets in a door to door campaign this Saturday in an attempt to earn money for the program next year.

Bill Nolan, who is in charge of the event, told the Herald that drinks, sandwishes and other refreshments would be available at the park.

Tickets will be available from any of the managers in the program and at Duke & Ayres.

Tickets will be 50c for adults and 25c for children.

He urged everyone to buy tickets when these young players come around. The Little League must have money to run its program and this is one of the few ways it is able to make money.

He said the money earned would go for uniforms and equipment for the teams next year.

"And he is only 15 and he had an even par on this course", was a comment heard several times after young Austinite Lloyd Morrison finished the Junior Golf Tournament held last Wednesday at the Cameron Country Club.

The even par 70 would have been good enough to take the Men's Tournament held on the same course this spring. The winner of that meet had a 72.

Young Morrison has been playing golf only two years now and he loves the game. Each day will find him out on the course and he puts in a lot of time on the practice shots.

"I practice about as much as I play," he said.

The Travis High School junior said he hoped to be a pro one day and he is working at it now.

He is quick to give credit to the golf pros who have helped him learn and improve his game. Dick Schieffer, of the Municipal Golf Course, Austin, and Russell Scott, of the Spring Lake Golf Course, in San Marcos, have been his instructors.

Morrison has been shooting some good golf. He has shot in the 60's three times at the San Marcos course and at the Austin course. Two of the sub-70's were 66's.

Morrison started off the day in a bad way as he double boggied the first hole to take a six. And he had only one other boggie. He shot three birdies to make up for the lost time.

Morrison was impressed with the hospitality shown the boys and the efficient manner in which the tournament was conducted. You can bet that he will be back next year.

And you might as well start remembering that name, Lloyd Morrison. He is the type that will start replacing Palmer, Burke, Nicklus and the others.

sh

But there will be someone here to challenge him. Cameron's Dickie Ponder, fast becoming one of Cameron's best all around athletes, had only a five over, 75, for the top prize in the 15-16 year old flight after Morrison was moved out and into the Medalist slot.

Ponder was a bit dejected after the tournament as he missed a couple of putts that he thought should have been easy. He said he has been having trouble with his putting game for the last few weeks.

Ponder and Morrison have a few things in common. Both are small. Ponder is about 150 pounds after the full athletic program he took part in last year. Morrison weighs about 130 pounds. Both are about 5'6" tall.

But Morrison's main interest is golf and it is the only sport in which he is active. Ponder, even at his light 125 pounds, was quarterback and defensive halfback on the football team, a starting guard on the basketball team, and ran a leg on the mile relay team, ran the open quarter and was in the broad jump. And he should be one of the top backfield men this year.

CARDINALS DROP BELTON 10-4

The Cameron Cardinals defeated Belton 10-4 in last Sunday's game.

Jim Aslazar was the winning pitcher as he had help from Monroe Bayer in the last 4 innings.

Pete Ortiz had two homers with two on each time as he was the big bat for the Cards. Jimmy Rettig homered also.

Rodney Folshinky had 4 for 4 in a perfect day at the plate. Joe Mata had a double and Catcher Louis DeLaRosa had a single. Arthur Kelly had 2 for 2.

Cameron will travel to Killeen this Sunday to meet the Blue Sox.

Michalka To Coach In All-Star Game

Joseph Michalka, former Yoe basketballer and now assistant basketball coach at Lubbock Montery, will be assistant coach in the Texas All - Star Basketball game August 8.

The basketball game will be held during the week long coaching school in Houston.

Lubbock Montery's head basketball coach. Jerald Myers will be the head Coach for the North team and chose Michalka to assist him.

West CameronTeams Win 4 Of 5 Games

The West Cameron Little League teams have won four of their last five games over the past two weeks

The Ramblers defeated Rosebud 20-6 and Gause 7-5.

The Citizens dropped Giddings 5-3 and Branchville 17-9.

The Citizens will play Temple July 18 at 5 p.m. and will close the year with Branchville at 3 p. m. July 20.

The Ramblers will play Branchville at 5 p.m. and everyone is urged to come out.

The Citizens have a 7-2 record and the Ramblers have a 5-2 record for the season.

The Life of a Community . .

"No business man in any community should allow a newspaper published in his community to go without his name and business being mentioned somewhere in its columns. This does not mean he should have a whole, half or even a quarter page ad in each issue, but your business — and name should be mentioned, if you do not use more than a two-line space.

"A stranger picking up a newspaper should be able to tell what business is represented in a community by looking at the paper. This is the best possible community advertising. The man who does not advertise his business does an injustice to himself and the community. The man who insists on sharing the business that comes to the community, but refuses to advertise, is not a valuable addition to any community. The life of a community depends on the live, wide-awake and liberal advertising business man."

A Big Cameron Week....

What more can be said about a week of activities that brought thousands unnumbered to Cameron for a horse show, county fair and teen golf tournament?

It is a matter of pride that these activities all shared significant success during the same four day period.

There was a fine display of sportsmanship shown in Cameron Country Club's first Junior Golf Tournament, and rousing success for the field of 64 youngsters.

There were thousands of visitors at the Cameron Town & Country Fair, which has been as widely publicized now as the best Western Week.

There was a good field of entries at the Cameron Saddle Club's Quarter Horse Show, the ninth running of the traditional event in Cameron.

Congratulations to the many persons who worked so hard and contributed so much to the success of these events. It was indeed a good week for Cameron.

A Gossamer Whisper....

It was as if an angel had fallen, not a youthful princess whose heart was as whole as Kathy Schofield's church was filled overflowing with admirers of several generations.

Her eulogy, those hundreds present, stood or sat quietly that Sunday afternoon, muted by a tragedy so final and so difficult to understand. If Rev. Strickland had said not a word nor had there been no soft music, the reverance would have been nothing less.

Speaking almost a soliloquy, the pastor gave solace from its final Source and saw warning for a community's youth, who, because they are young, sometime find finality only for the old.

There was not a dry eye; how could there be?

There was an unbending, however, and a humility becoming to people of all ages and all interests and all walks of life.

It was, for all, a difficult moment, no sooner to be forgotten than the lovely child whose presence was great at this brief service.

The youth of Cameron, joined in tribute with her family and friends, said by their presence, more than one, that it was their loss sadly shared, sadly understood.

One could almost hear the gossamer whisper of an angel's wings.

Good Smile May Win Queen's Crown For Milam Entrant

WACO — Five Central Texas high school girls are going to be selected as "Heart O' Texas Fair Smiles Queens."

A smile queen will be designated for each night of the big fair and rodeo, October 1-5.

The eliminations contest will be held on August 12 in Waco. Girls who will be juniors or seniors in Central Texas high schools for the term beginning in September are eligible.

There will be a division for girls who have been winners or runnersup in any 1963 beauty contest and a separate division for contestants not entering or placing in previous contests.

Winners will attend a luncheon with the star of the Fair and Rodeo, ride in the October 1 parade in downtown Waco, appear on television shows and enjoy many other honors.

Girls desiring more contest information and entry blanks should send a post card to "Smile Queen Contest Chairman", Heart O' Texas Fair, P. O. Box 7581, Waco, Texas.

REPORTABLE DISEASES

Dr. T. E. Crump, acting director of the Milam County Health Unit, this week listed the following reportable diseases for the week ending July 13: 16 strept throat and 1 gonorrhea.

Wreck Toll, Law Up Insurance Tab

By Vern Sanford

AUSTIN — A growing toll of accidents on city streets and freeways, heavier damage claims and an act of the Legislature . . all have combined to cause insured motorists in Texas a double-dip premium during the next five months.

First boost for most drivers will come on policies renewed after August 1, when new auto insurance rates set by the State Board of Insurance go into effect.

Many others face a second increase in liability insurance premiums after January 1. This is effective date of a new law requiring financial responsibility of $10,000 per person and $20,000 per accident.

Present law requires $5,000-$10,000. So those now carrying minimum insurance will pay an average of $4.00 more after January 1.

Increasing accident losses, mainly in urban areas, forced the Insurance Board to hike liability and collision rates in most sections of the state.

Average premium boosts after August 1 will be 5.2 percent for bodily injury, 9.7 percent for property damage and 8.4 percent for collision. This will cost policyholders a total of $12,000,000. Drivers in some rural areas, however, escape the rate increase.

PHYSICAL EDUCATION — Atty. Gen. Waggoner Carr has been asked to come to the aid of hard-pressed physical education departments in the 20 state - supported universities and colleges.

Commission on Higher Education asked Carr for an opinion on the legality of the "rider" in the new appropriation bill, which goes into effect on September 1. Rider declares that state funds for physical education can be used only for mass calisthenics unless the students are majoring in PE. Net effect would be special fees charged by the schools if they wanted to give instruction in games.

Some schools have protested that the rider would seriously curtail physical education programs.

JOBS ASSIGNED — Speaker Byron Tunnell has more than 60 appointements to make on interim study committees. He is making them at the rate of one or two a week .

Reps. George Cook, Odessa; J. Collier Adams, Lubbock; Maurice Doke, Wichita Falls; George Hinson, Mineola; and Ben Jarvis, Tyler, will study the oil and gas industry. Their assignment is no small chore . . . . how to restore prosperity to the Texas oil industry.

Reps. Ben Atwell, Dallas; Dick Cory, Victoria; and David Crews, Conroe, will take up membership on the Committee on State and Local Tax Policy. Lt. Gov. Preston Smith has named Senators George Parkhouse, Dallas; W. T. Moore, Bryan; andJack Strong, Longview. Balance of the committee will be composed of three citizens to be named by Governor Connally.

Reps. W. H. Miller, Houston: Myra Banfield, Rosenberg; Raleigh Brown, Abilene; Charles Scoggins, Corpus Christi; and John Traeger, Seguin, will investigate public school testing.

Rep. Bob Fairchild of Center has been named chairman of the House General Investigating Committee by Speaker Byron Tunnell.

Other new members are Reps. Ben Barnes of DeLeon, Hudson Moyer of Amarillo, Bill Parsley of Lubbock and James Slider of Naples.

Previous investigating committee's probes ranged from alleged basketball game fixes to the East Texas slant - hole scandal.

MENTAL HEALTH — National Institute for Mental Health has awarded a $302,000 grant to the State Hospital Board for research and training in mental health.

Houston State Psychiatric Institute received a grant of $114,878 for research in early clinical drug evaluation.

Remainder of the funds went to Baylor University College of Medicine for various research projects.

AFL-CIO LOSES — A suit by State AFL-CIO leaders alleging improper lobbying activities by Texas Employment Commission members and four employees was dismissed in 53rd District Court at Austin.

Suit, filed last February, claimed TEC pushed 11 pro - employer bills in the Legislature. Judge Herman Jones said the union failed to prove its case.

Union said it would appeal the decision.

COTTON — Texas cotton farmers planted 670,000 fewer acres this year than in 1962, U. S. Department of Agricuture reports.

Decline amounted to 9.7 percent, which is more than the national decrease of 9.0 percent. Reduction, made compliance with the federal control program, would mean a cut of about 476,000 bales in the state's cotton production if yield-per-acre is the same as last year.

POLL TAXES — Folks who are past 60 and living in towns with 10,000 or more population should get their poll tax exemptions on October 1 or as soon as possible thereafter.

Exemptions for those over 60 are free under the old law, which will be in effect at last until November 9. That's the date for the vote on repeal of the poll tax as a voting requirement.

If Texans vote FOR the repeal, those over 60 who live in towns above 10,000 population then will have to pay a 25 - cent registration fee. Ditto for all voters under 60.

Those past 60 who live in rural areas or in towns under 10,000 population will not be affected by the changes. They can vote without paying both the old and the new law.

OLD PHILOSOPHER

Philosopher Put Out By Official
Who Finds Farmer's Handshake Flabby

Dear editar:

While it never has bothered me, some farmers I've been reading about are worried over the public image they present to the rest of the country.

As I understand it, some city people think farmers are getting rich because of the price of food at the grocery store is so high, and some farmers think they ought to hire a public relations outfit to correct this and tell the true story.

Well, I've never had much trouble along this line myself, don't ever recall having a city man come out here to this Johnson grass farm asking for a loan, not even a newspaper man, but there is one image of the farmer some people have that ought to be corrected.

According to an article I ran across in a newspaper last night, Interior Secretary Udall toured a farm area a while back and reported later he was shocked by the flabby handshakes of farmers.

This is what I'm talking about. Us farmers are still considered by some to be horny-handed son of toil who are getting soft if we don't shake hands like a grizly bear, whereas actually of course we're scientists producing food so fast that if the space scientists were up on our level the missile gap between Russia and tne U. S. would be reversed. In fact, if your space scientists were as far advanced ahead of Russia as us agricultural scientists, we'd have already been to the moon twice and raised our debt ceiling four times to pay for it.

How a farmer shakes hands ain't no index to the complicated farm planning going on inside his head, and a farmer sitting on his front porch in deep thought can be as constructive as an Einstein doing the same thing.

This is the image the public ought to have of us farmers—dedicated, underpaid scientists, and I've been sitting on my front porch for years.

Yours Faithfully,

J. A.

COUNT THE PIGGIES

The Texas spring pig crop totaled 612,000 head, according to the Texas Crop and Livestock Reporting Service. This number is 15 perment below last spring's crop, and the number of sows farrowed was 90,000 or 13 percent lower than it the spring of 1962.

DAIRY COWS NEED SHADE

Plenty of fresh cool water and ample shade are necessity for dairy cattle during hot weather, says A. M. Meekma, extension dairy specialist, Texas A & M. Failure to provide these inexpensive comforts for the producing heard can make a big difference in the milk check, he adds.

Out Of The Past
From Herald Files

IN 1901

"At a meeting of the City Council Mr. J. E. Boynton and Mr. J. B. Earle asked the granting of a franchise to put a new telephone system in Cameron in competition with Southwestern Telephone and Telegraph.

"Mr. Boynton is a prominent attorney in Waco and Mr. Earle was for several years a justice of the peace at Waco. There system does away with the bell and crank. Maximum rate to be charged is $2. to residents and $3. to business houses.

"Messrs. H. C. Pitts and Russell W. Beaty have secured control of the Auditorium and are fitting it up in first class style as an opera house. They will open the season in the fall with one of the best attractions now in the state, the celebrated Spanish Octette."

IN 1938

Dedication ceremonies for the $14,000 statue of Benjamine Rush Milam were held July 17. Speakers at the ceremony were Lt. Gov. Walter Woodul, Coke R. Stevenson, Roy Law, Mrs. Mary Culpepper, Judge Jeff T. Kemp and Miss Mary Frances White, grandniece of Ben Milam.

DO IT BETTER *Electrically!*

HEAT-COOL *flamelessly!*

"See, Betty, it's like the man said . . . we just set the thermostat and for get it."

And mother is right. Regardless of how often or how rapidly the outside temperature may change, the flameless electric heat pump automatically keeps the inside temperature at the comfort-level you select. The heat pump provides fresh, draft-free air the year 'round . . . pleasant warmth in the winter, delightful coolness in the summer.

If you're planning a new home, include a flameless electric heat pump in those plans . . . or, ask your electrical dealer about the low cost of installing a heat pump in your present home.

THE DEPENDABLES FROM DODGE!

IF YOU'D LIKE TO DRIVE A GREAT BARGAIN

BE OUR GUEST

The car shown above is a '63 Dodge Polara hardtop, a beautiful bargain if there ever was one—a good reason why Dodge sales are up 65.5% so far this model year. For one thing, the Polara is priced with Ford and Chevy. For another, it's backed by a five-year/50,000-mile warranty.* And to seal the bargain, Dodge Dealers are giving the best deals in their history. So be our guest and come drive this bargain. The '63 Dodge. At your Dodge Dealers now.

*Your Dodge Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair without charge for required parts or labor for two years or 50,000 miles, whichever comes first, on the engine block, head and internal parts, transmission case and internal parts (excluding manual clutch); torque converter, drive shaft, universal joints (excluding dust covers), rear axle and differential, and rear wheel bearings—provided the vehicle has been serviced at reasonable intervals according to the Dodge Certified Car Care schedules.

GERTRUDE STEIN WROTE "A ROSE IS A ROSE, IS A ROSE"

At first glance we might take such a statement as the nonsensical chit-chat of a demented parrot, but upon sober consideration we are apt to realize that it is much more. It was in reality her unique way of saying that a rose is by all odds the most beautiful flower and fragrance of the flower is a matter of conjecture. Perhaps she was thinking of the entire Rose Family, which yields valuable fruits, such as the apple and plum and many other economic products, among them the almond, wild cherry and oil of Rose.

Why is it that the Rose Family should yield such a wide variety of flowers and fruits? Environment, Mendelism and cultivation the botanist and biologist will say. They mean that the condition of the soil and the prevailing climatic conditions determine the manner and rapidity of growth; that principles of heredity will produce changes in the plant's nature and of course cultivation will promote its growth and yield.

In this respect, then, man is like a plant. In a healthful climate; in a pleasant environment there is ample opportunity for moral and mental uplift. The Church should play an important part in everyone's life and wellbeing. Attend the church of your choice regularly. Set a good example for your family and they will eventually follow in your footsteps.

In The Service...

JAMES CONNALLY AFB - Cadet Charles H. Freeman of Rosebud is participating in the Air Force Reserve Officer Training Corps (AFROTC) summer encampment here.

Cadet Freeman, son of Mr. and Mrs. A. L. Freeman of Rosebud, is observing and taking an active part in various phases of base operations during the encampment period.

A member of the AFROTC program at Texas A&M College, he will be eligible for appointment as an Air Force second lieutenant upon graduation from college.

The cadet is a graduate of Rosebud High School.

DYESS AFB, Tex. — Technical Sergeant Buford W. Gaeke of Rosebud, has arrived here for assignment with Tactical Air Command unit following a tour of duty in Libya.

Sergeant Gaeke, a flight mechanic, is the son of Mr. and Mrs. C. H. Gaeke of Rosebud. He is a former student at Rosebud High School.

The sergeant's wife, May, is the daughter of C. K. Taylor of Lott.

USS LEXINGTON (FHTNC) -Navy Ensign Donald L. Woods, son of Mr. and Mrs. William L. Woods of Milano, recently qualified for aircraft carrier flight operations by making six arrested Carrier Qualification landings aboard the anti-submarine warfare support carrier USS Lexington in the Gulf of Mexico.

Miss Caroline Polley Will Hold Concert July 21 At F. C. C.

The First Christian Church of Cameron is honored to announce that they will again be privileged to present Miss Caroline Polley of New York City and Waco, in a concert on Sunday evening July 21 at 7:30.

Miss Polley is a graduate of Baylor and Columbia Universities. She studied under the late Ceasar Sadero famed voice instructor of the Met-opera in New York. Later they were married and she taught voice with him until his death.

Miss Polley has been a featured soloist at the Metropolitan opera and is presently teaching voice there from September through May.

Several years ago after meeting and working with Dr. Billy Graham she decided to devote her summers to presenting concerts of gospel hymns at churches in her native central Texas. Among the hymns that she will sing will be, How Great Thou Art, My Desire, It took A Miracle. Her concert is always closed with The Lord's Prayer.

Miss Polley is a member of the Baptist Church. Believing devoutly that unity must come among all christian churches she presents her concerts in churches of all demoninations.

The public is invited to attend the concert at The First Christian Church. Those of us who have been privileged to hear her promise you an experience you will never forget.
